Subject: RE: New premises licence consultation Arch 37 America Street

Dear licensing team,

I wish to object to this license application.

Borough and Bankside ward is in a cumulative impact policy area because of the alcohol related crime and disorder statistics for the area, and the alcohol related hospital admissions data. Therefore, this application should be refused. The new premises would impact negatively on efforts to prevent crime and disorder, public nuisance and protect public safety.

Many thanks,

David

Councillor David Watson
Liberal Democrat Councillor for Borough & Bankside Ward

Subject: Re: Licence Number 887519. Objection.

I wish to add to the below a correction of facts re America House. During the previous licensing application (in 2023) members of the panel referred to America House as having residential units from the 3rd floor upwards. Despite my correcting this during the hearing, that misinformation was repeated in the final report.

The ground floor of America House is parking. First floor is offices. Above that it is entirely residential units. No 1 - 5 of these are on the 2nd floor.

Please can you ensure the correct information is used going forward?

On 6 Dec 2025, at 16:31, [REDACTED] wrot

Licence Number: 887519

I wish to make a representation in relation to the above Application.

I live in [REDACTED] and have bedroom windows facing America Street.

First, I would like to say that I am not totally opposed to the use of the arches as restaurants etc, however, I am concerned about the public nuisance (particularly noise) that will be created by a bar, particularly one that is open late every night and playing music until 1am at weekends. Further, the current Application does not seem to have any conditions relating to the incidental noise that will be created by this sort of use of the premises e.g. restrictions on deliveries, emptying of waste and recycling into outside bins at night etc. These activities will also potentially create a public nuisance.

I am very concerned about the increasing crime in the area (we have had break-ins and thefts from the garage and lobby of our building) and the general safety of the area at night. Criminals are increasingly attracted to the area by the influx of affluent young people who are drinking and providing easy targets for pick-pocketing and phone theft. This impacts on the quality of life for residents of the area and our safety. Another bar in the vicinity, particularly so close to our homes, will likely increase this problem.

I note that this Licence Application is for even later hours (for example, 01.00 as opposed to 00.30 at weekends) than the previous licensing applications that were rejected by the Council last year. (Report of the Hearing of the Licensing Sub-Committee dated 7th Nov 2024). I apologise for quoting heavily below from those Applications, but the representations made then are relevant to the current Application, particularly in relation to the very close proximity of the premises to a residential building.

The 2024 Applications were rejected after representations by the Metropolitan Police Service, Trading Standards, Environmental Protection Team and the Licensing Authority. There were also representations made by residents of America House, a residential building with 22 units comprising of 50% of No 1 & 2 America Street. Flats range from the 2nd to the 6th floor and many have bedrooms facing directly onto America Street and the Arches.

I quote the report of the hearing at para 25, which refers to the representation of the Licensing Authority -

"The representation states that the application can be refused on the sole basis that it is subject to a cumulative impact area and that they disagree with the applicant's statement that the "locations are not in a residential" as there are residents living close by."

The report then refers to the original planning permission given to the Arch Company for the arches -

"Condition 15 of the permission restricts opening hours to the following:

15. The use hereby permitted for the development hereby approved; purposes shall not be carried on outside of the hours of:

- 8:00 - 23:00 on Monday to Fridays;
- 8:00 - 23:00 on Saturdays and;
- 8:00 - 23:00 on Sundays and Bank Holidays.

Reason:

To safeguard the amenities of neighbouring residential properties in accordance with Chapter 8 (Promoting healthy and safe communities) of the National Planning Policy Framework (2021); Policy D4 (Delivering good design) of the London Plan (2021); and Policy P56 (Protection of amenity) of the Southwark Plan (2022).

This planning application was reviewed in detail by EPT and in correspondence with Arch Co over numerous matters. With regards to the opening hours, these were agreed to by Arch Co."

In the Notice of Decision the Licensing Sub-Committee state -

" America Street, although in a major town centre (as classified in SoLP), is a densely populated area that suffers from the consequences of the cumulative impact arising from the high concentration of alcohol-led premises in their neighbourhood. Residents informed the sub-committee that they were already disturbed by licensed premises in the area, and many were prohibited from opening their windows in the summer months due to the noise from these premises. Many of the residents had young children and/or elderly parents who needed sleep. Other residents were shift workers (or worked during the weekend) so needed to sleep at a reasonable hour. If the premises licence were granted it would undoubtedly lead to increased intoxication levels with a consequential increase in disorder. The grant of this licence would increase the overall footfall of the immediate area, which would result in increased noise from patrons and the premises at a later hour, more drinking and more crime and anti- social behaviour to the area. Any expectation that residents could report noise complaints to the council's noise and nuisance team would place a heavy burden on residents who would be expected to record the breaches and impacts on them which would be exhausting."

Despite all this the current Applicant claims in their general description of premises -

" The immediate area is predominantly commercial, with little to no residential property nearby, which significantly reduces the potential for noise or public nuisance."

This statement is simply not true and both the current Applicant and their landlords (Arch Company Properties Ltd) should be reminded that it is an offence section 158 of the Licensing Act 2003 to make fraudulent statements in relation to a licensing application.

The Arch Company simply cannot claim to be still unaware of a residential development so close to the site. If they have told the current Applicant that this is the case, then there has been a serious misrepresentation of fundamental facts.

It is also of note that there is no suggestion in this current Application that the premise could have a direct, manned telephone number available to local residents which can be called in the event of any late night nuisance. Presumably because they have been led to believe there are no such residents.

It is also of note that even if this Application is granted the applicant will still (I presume) be bound by the hours of permitted use stated in the original planning consent.

On a more minor issue. I am also very concerned about smoking in the street and increased use of Keppel Row and America Street by smokers. We currently have a problem with staff from CBRE and local restaurants who use Keppel Row to smoke on breaks, apparently because they are forbidden to smoke around their own entrances. I imagine that staff and clients from the new premises will increase this problem. This is a particular nuisance (and health hazard) on rainy days when they gather under the awning of our entrance as this is the only shelter available from the rain.

To conclude. I object to this Application for a premise licence to be granted under the Licensing Act 2003. I also object to any proposal to extend the hours of operation of this premise beyond those permitted in the condition 15 of the original planning application for this site.

My objection is based on the prevention of crime and disorder, the promotion of public safety and the prevention of nuisance.

Re protection of children from harm, it should also be noted that there are children resident in America House and we ourselves often have visiting grandchildren. Although the "protection of children from harm" does not seem to cover the protection of children from disrupted sleep, it is not ideal to expose children to the sight (from their bedroom windows) of drunken adults and violent brawls which late night drinking may bring to America Street. If that is also a valid reason for objecting, I object on that ground too.

Yours,

[REDACTED]

Subject: Objection: Applications for Premises Licences and Reviews Details for Licence Number: 887519

Good morning

I see a request has been placed for a licence, including music until 1am three nights a week. I live in a [REDACTED] on America Street, directly overlooking the premises.

I object to the licence being granted on the basis of the noise nuisance it will inevitably create. We are already subject to considerable noise disturbances from Brix on Great Guildford Street and Flat Iron Square. This is significantly problematic at the weekends and especially bad in the summer where we need to keep the windows open.

Our young children are often kept awake at night by revellers on the street outside our windows. I can imagine this will become significantly worse if the proposals go ahead and am concerned about the impact of this on our quality of life.

I would be grateful if you can reflect this application.

Thanks

OTHER PERSON 4

09 December 2025

Dear Sir/Madam,

I am writing to **object** to an application with **Licence Number: 887519**.

I have been a resident of [REDACTED] since [REDACTED]. Our [REDACTED], on the [REDACTED]-facing corner of America Street and Great Guildford Street. The arch in question is located directly outside our master bedroom.

We suffer from a lot of noise pollution in the area. During the day this is not so much of an issue - we are in Central London after all. However, at night this is incredibly disruptive to our sleep.

The nighttime noise is mainly from people coming out of Brix bar on Great Guildford Street and late night revellers returning to their student halls from the Ministry of Sound night club. They are usually intoxicated and tend to linger outside our building whilst waiting for taxis, smoking, etc.

I am concerned that the registrants of the new application are hoping to open a late-night premise (their application is for certain nights to be open until 0:100) and that they also serve alcohol until the end of service.

Their registration also incorrectly states that the area is not residential - as already mentioned our building is directly in front of the arch!

I sincerely hope you can understand our concern as residents and do not let this application proceed.

Yours sincerely,

[REDACTED]

Subject: Objection: Applications for Premises Licences and Reviews Details for Licence Number: 887519

Dear Sir/Madam

I see a request has been placed for a licence, including music until 1am three nights a week.

I live in a [REDACTED], with windows overlooking America Street, directly in front of the premises that are the subject of this application.

I object to the licence being granted on the basis of the noise nuisance and disruption to daily residential life it will inevitably create. We are already subject to considerable noise disturbances from Brix on Great Guildford Street and Flat Iron Square. This is significantly problematic at the weekends and especially bad in the summer when we need to keep the windows open due to lack of air conditioning in

the flats. I have [REDACTED] who are already negatively impacted by the existing level of noise late at night which would become significantly worse if the licence were to be granted.

I also object to the licence being granted on the basis that the licence request is fundamentally flawed in that it states "the immediate area is predominantly commercial, with little to no residential property nearby". This is factually incorrect, as America House is a block of mostly residential flats, many of which are directly opposite the premises. An appropriate assessment on the impact on residential properties has therefore not been carried out on the basis of the incorrect information provided in the application.

I would be grateful if you could please reflect this objection on the application.

Thank you.

Kind Regards,

To: Regen, Licensing <Licensing.Regen@southwark.gov.uk>
Subject: Licence Number 887519. Objection.

I am writing to formally submit my representation concerning the above licence application. I have been a resident [REDACTED] for the past [REDACTED] yrs, with bedroom windows facing America Street, I am not only directly impacted by the existing licenced premises, but also this proposal on America street.

While I am not fundamentally opposed to the use of the arches for restaurants and similar businesses, I have significant concerns regarding the potential for public nuisance, particularly noise, associated with the proposed bar/food hall. The prospect of late-night operations, including music until 1am on weekends, raises

issues around disturbance to residents. Furthermore, the current application does not appear to address other potential impacts of noise, such as late-night deliveries or the emptying of waste and bins, which could further contribute to public nuisance.

Crime in the area is also a growing concern, there is a noticeable increase in criminal activity, particularly targeting individuals frequenting local bars, phone theft etc. The addition of another bar near residential properties and other licenced premises (Brix, Flat Iron Square etc) is likely to exacerbate these issues, impacting both the safety and quality of life for residents.

It is important to note that this application seeks even later operating hours than previous applications, which were rejected by the Council in 2024 following representations from the local Police Service, Trading Standards, Environmental Protection Team, and the Licensing Authority. Residents of America House, comprising 22 units, have consistently raised concerns about noise and anti-social behaviour, given the proximity of their homes to the proposed premises.

The original planning permission for the arches, as stipulated in Condition 15, restricts operating hours to 8:00–23:00 daily, specifically to safeguard residential amenity. This was agreed upon following detailed review by the Environmental Protection Team and Arch Company.

Despite this, the current applicant asserts that the area is predominantly commercial with minimal residential presence, which is factually incorrect. There are 22 residential flats on America Street, whose windows look directly onto America Street. Both the applicant and their landlord (The Arch Company) should be reminded of their obligations under section 158 of the Licensing Act 2003 regarding the accuracy of statements made in licensing applications. How can The Arch Company claim there is minimal residential presence close to the site. If they have informed the proposed tenant this then this should be treated as a serious matter. I realise they are desperate to let out these units, but it must be the right type of business and with due consideration for very close residential properties. There is clearly a lack of consideration for the local community.

Minor but relevant concerns include increased street smoking, particularly in Keppel Row and America Street, which already experience issues due to staff from nearby businesses. The new premises are likely to intensify this problem, especially during inclement weather when smokers seek shelter near residential entrances. We have recently collaborated with Better Bankside, and I understand that funding has been secured to transform America Street into a safe and welcoming public realm—an amenity that is currently in short supply in our area. The introduction of licensed premises on this small street would undermine these efforts and compromise the intended benefits of the development.

In summary, I object to the granting of this premises licence and to any extension of operating hours beyond those permitted in the original planning consent. My objection is based on the prevention of crime and disorder, the promotion of public safety, and the prevention of nuisance. Furthermore, there are children residing in America House, and exposure to late-night disturbances and anti-social behaviour is not conducive to their wellbeing.

I trust these concerns will be given due consideration in the decision-making process.

Subject: Licence Number 887519. Objection

Licence Number 887519. Objection

[REDACTED]

[REDACTED]

10/12/25

I wish to submit my representation concerning the above licence application.

I have been a resident of [REDACTED] for [REDACTED] years. This is a [REDACTED] floor flat and has bedroom and living room windows opening onto America Street, only a few metres from the proposed development.

I am concerned about the impact on local residents many of whom live within very close proximity: in particular noise nuisance associated with amplified music and its proposed function as a bar/food hall. This is particularly so given the application is proposing late night functioning until 1 a.m. which will generate direct noise and also involve customers entering and leaving the premises. In addition, I believe further impact from associated noise will occur such as late-night deliveries and emptying of bins etc. Other current concerns include litter, disruptive public behaviour (including urinating in street) and smoking around premises which can create a threatening environment for locals.

The local area has experienced a rapid increase in hospitality venues (including Brix and Flat Iron Square) which I believe have had a negative cumulative impact on residents and is now at saturation-point. General disruption and noise is now common. In addition, rising crime rates in the area is a significant concern which has been identified by the police (including phone thefts and targeting those using hospitality venues).

I note that a previous application made by the Arch Company in 2004 was rejected by the council following representations from Trading Standards, local Police service, Environmental Protection Team and Licencing Authority. Local Residents (including those from America House) raised concerns including noise nuisance and antisocial behaviour. The current proposal is seeking later opening hours than the rejected 2004 proposal and likely to have greater adverse impact.

As noted, the original planning permission (condition 15) restricted opening-hours from 0800-23.00 as a safeguard to local residents. I understand this was agreed by the Environmental protection team and the Arch Company.

This application states that the area is predominately commercial with minimal residential presence. This is factually incorrect: the Arch company are aware of this as it was a core feature of the 2004 proposal rejection. There are 22 residential flats on America Street with windows directly facing the arches. Section 158 of the Licencing Act (2003) obliges applicants and landlords to furnish accurate reports which I do not believe has occurred and is a serious misrepresentation of facts.

I note that Better Bankside has collaborated with local residents and obtained funding to develop America Street into a safe public domain which should provide a welcome enhancement in an area increasingly dominated by private and disruptive enterprises. I suggest that proposed development of the Arches will be counter to this ethos, diminish the project and, as such, be detrimental to the well-being of local residents.

I am not opposed to appropriate developments in the area (including restaurants): however, this application has not considered adverse impact on local residents and its likelihood to diminish quality of life. Overall, I object to the granting of a licence for this premises and to an extension of operating hours that were formerly agreed in the original planning consent. I am a hospital doctor and can work unsocial hours: it is important home environment be un-disrupted by adverse disruption especially at antisocial hours. I believe this proposal will negatively impact on a residential area through nuisance (including noise), and public disorder/safety.

Subject: Objection to Licence Application - 887519

Dear Sir/Madam,

Please see below my firm objection to the application with licence number: 887519.

Please let me know if you need this in another format.

Thank you,
[REDACTED]

Dear Sir/Madam,

I am writing to strongly **object** to an application with **Licence Number: 887519**.

I, together with [REDACTED], have been a resident of [REDACTED] since [REDACTED]. Our flat is located on the [REDACTED] on the [REDACTED] facing corner of America Street and Great Guildford Street. The arch in question is located directly outside our master bedroom.

We suffer from a lot of noise pollution in the area. During the day this is not so much of an issue - we are in Central London after all. However, at night this is incredibly disruptive to our sleep.

The nighttime noise is mainly from people coming out of Brix bar on Great Guildford Street and late night revellers returning to their student halls from the Ministry of Sound night club. They are usually intoxicated and tend to linger outside our building whilst waiting for taxis, smoking, etc.

I am concerned that the registrants of the new application are hoping to open a late-night premise (their application is for certain nights to be open until 0:100) and that they also serve alcohol until the end of service. This will exacerbate the existing problem and - given the proximity of the premises to multiple (22) residential units, make the issue considerably worse.

Their registration incorrectly states that the area is not residential - as already mentioned our building is directly in front of the arch! There are 22 flats in the block.

In addition to the noise and pollution concerns, there are concerns regarding (i) and uptick in public nuisance / crime, and (ii) the adverse impact this premises will likely have on the financial value of the property.

This application is particularly disappointing since a previous application was lodged in respect of the premises earlier in the year, received numerous objections due to the 1am licence restriction, and was subsequently withdrawn. It is not clear to me why this application should be treated any differently (exactly the same issues remain).

I sincerely hope you can understand our significant concern as residents and do not let this application proceed.

Yours sincerely,

Subject: Objection to Licence Application – America Street Arches (Late-Night Licence Request)

Hi,

I am writing to formally object to the licence application for the proposed food hall / bar under the railway arches on America Street, specifically the request for opening hours extending until 1:00am with live music and DJs.

There are several significant concerns shared by many residents on America Street, a location that does contain 22 residential properties, despite the applicant's repeated assertion that the area is "not residential". This is simply incorrect, and the impact on our homes and daily lives would be substantial.

1. Conflict with Existing Planning Restrictions

The Arch Company previously secured planning permission based on agreed restrictions designed explicitly to protect residential amenity. Condition 15 clearly limits opening hours to 8:00–23:00 across all days, with the reason stated as:

> “To safeguard the amenities of neighbouring residential properties.”

Allowing a licence to 1:00am would directly contradict the planning approval and undermine the decisions already made by the Council’s planning department.

2. Noise, Disturbance & Anti-Social Behaviour

Late-night drinking, amplified music, and live DJs will inevitably generate noise and behaviour that will disrupt residents’ sleep and wellbeing. America Street is a narrow, echoing street where noise carries significantly.

This concern is particularly pressing for families. We are one of the families with a young child—[REDACTED]—and the prospect of late-night entertainment until 1:00am is deeply worrying. At that hour, the crowd remaining will largely consist of heavily intoxicated individuals, which raises concerns about safety, behaviour, noise, and the general environment immediately below our homes.

3. Impact on the Public Realm Improvements

America Street has recently secured Better Bankside funding to transform the street into a pedestrian-friendly space with greenery, seating, and community-focused public realm improvements.

A late-night drinking establishment threatens to:

undermine these enhancements,

damage the character of the street, and

encourage spill-out drinking and noise into an area intended for peaceful community use.

4. Impact on Property Value and Saleability

While not our primary concern, multiple residents have raised the well-documented issue of mortgage lender reluctance to finance homes located opposite late-night drinking venues. Lenders often view such locations as higher-risk due to noise, licence creep, and potential devaluation. This affects all floors, not just lower-level flats.

5. Family & Community Considerations

Residents with children, including us, are particularly anxious about late-night disturbance and the behaviour associated with venues of this nature. The presence of families in our block and on our street should be a material consideration.

6. Not an Objection to Businesses in the Arches

Residents are not opposed to activity in the arches. We support businesses that align with the planning restrictions already set—genuine restaurants operating within the permitted hours and respecting the residential context.

This application, however, is for a late-night food hall and drinking venue, which poses unacceptable risks to residential amenity, safety, and the character of the street.

For these reasons, I respectfully request that the Council refuse this licence application and uphold the planning conditions previously deemed necessary to protect residents.

Thank you for your time and consideration.

Kind regards,

From: [REDACTED]
Sent: Thursday, December 11, 2025 12:58 PM
To: Regen, Licensing <Licensing.Regen@southwark.gov.uk>
Subject: Licence Number 887519. Objection

Good afternoon:

I am writing to formally submit my comments regarding the above licence application. Having lived in [REDACTED] for the [REDACTED] I am directly affected by the already existing licensed premises and this proposal for a new one.

Although I am not inherently against the use of the arches for restaurants or similar businesses, I have substantial concerns about the likelihood of public nuisance—particularly noise—stemming from the proposed bar/food hall. The plan for late-night operations, including music until 1am on weekends, presents a significant risk of disturbance to nearby residents.

In addition, the application does not seem to consider other noise-related impacts such as late-night deliveries or the emptying of waste and bins, both of which could further contribute to public nuisance.

Crime in the area is also increasingly problematic, with a noticeable rise in incidents targeting individuals visiting local bars, including phone theft. Adding yet another bar close to residential properties and existing licensed venues (Brix, Flat Iron Square, etc.) is likely to intensify these problems, negatively affecting residents' safety and overall quality of life. Only a few weeks ago a massive brawl broke out outside of Brix, with dozens of people hitting each other and the establishment's security intervening to prevent further public nuisance. I am able to send a video of this altercation should it be required.

It is also important to highlight that this application seeks even later operating hours than earlier applications, which the Council rejected in 2024 following representations from the local Police Service, Trading Standards, the Environmental Protection Team, and the Licensing Authority. Residents of America House, consisting of 22 units, have repeatedly raised concerns about noise and anti-social behaviour due to the close proximity of their homes to the proposed venue. The original planning permission for the arches, as set out in **Condition 15**, limits operating hours to 8:00–23:00 daily

specifically to protect residential amenity. This restriction was agreed upon after detailed assessment by the Environmental Protection Team and the Arch Company. Despite this, the current applicant claims in the license form that "the area is predominantly commercial, with little to no residential property nearby" commercial with very few residents, which is simply untrue. There are 22 residential flats on America Street, all facing directly onto the street. Both the applicant and their landlord (The Arch Company) should be reminded of their obligations under [section 158 of the Licensing Act 2003](#) regarding the accuracy of statements made in licensing applications. How can The Arch Company assert that there is minimal residential presence near the site?

If this is the information they have given the prospective tenant, it should be treated as a serious issue. I understand they are eager to lease these units, but the type of business must be suitable and must take account of nearby residential properties. There is clear disregard for the local community. Additional but relevant concerns include increased street smoking, particularly on Keppel Row and America Street, which already suffer from issues caused by employees from nearby businesses. The new premises would likely make this worse, particularly in bad weather when smokers seek shelter near residential entrances. We have recently worked with Better Bankside, and I understand funding has been secured to transform America Street into a safe and welcoming public space—an amenity currently lacking in our neighbourhood. Introducing licensed premises onto this small street would undermine these improvements and compromise the benefits intended by the redevelopment.

In conclusion, I object to the granting of this premises licence and to any extension of operating hours beyond those permitted under the original planning consent. My objection is based on preventing crime and disorder, promoting public safety, and preventing nuisance. Additionally, children live in America House, and exposure to late-night disruption and anti-social behaviour is not compatible with their wellbeing. I trust that these concerns will be properly considered in the decision-making process.

I am writing to formally submit my representation concerning the above license application. I am currently resident of [REDACTED], with windows facing the railway lines and arches on America Street.

As a resident in [REDACTED] I am still adjusting to the constant noise coming from the rail tracks with trains running from around 5 am to 1am daily that is affecting my quality of life and health.

I am not opposed to new businesses occupying the empty arches, my concern relates to additional noise pollution in an already noisy location, generated by a late night bar/food hall with music until 1am on weekends

and potential public nuisance that goes with the territory, impacting the quality of life for me and the other residents of America House.

I trust these concerns will be taken into consideration.

Hi Southwark Council,

I'm writing to object to this application for a late-night alcohol and music licence until 1am.

I'm a long-time resident of [REDACTED] residential building, (opposite). In my view, applicants often ignore our building when assessing local impact, and it should be fully considered here.

I support new businesses, but a 1am licence will inevitably bring late-night noise and disturbance; music, people leaving, and often drunk revellers outside - which is unfair on residents.

I request the licence is limited to 22:00 at the latest. For example, Spring Street Pizza in Flat Iron Square (referenced by the applicant) closes at 22:00, so I see no reason this venue shouldn't be aligned.

Regards,

[REDACTED]

Thank you it would be on the grounds of

1. Prevention of crime: drunkenness, anti-social and general disorder
2. Prevention of public nuisance: noise

Hello

Thank you for your email

For us to accept this representation we would need to know which of the 4 licencing objectives your objection is based on

1. Prevention of Crime and Disorder: Stopping drug problems, drunkenness, anti-social behavior, and general disorder.
2. Public Safety: Ensuring the physical safety of people using licensed premises (e.g., fire safety, crowd management).
3. Prevention of Public Nuisance: Managing issues like noise from music, litter, bad smells, and light pollution.
4. Protection of Children from Harm: Safeguarding children from moral, psychological, and physical harm.

Please note that the last date of objections is 19th December 2025 and if we do not hear from you before then we will not consider this representation

Kind Regards

David Stone

Subject: Licence Number: 887519

I wish to make a representation in relation to the above Application.

I am not against the premises being used as a restaurant, but the application in its current form suggests that these premises will be used largely for late night drinking. The entry for America Street Ltd on Companies House lists the nature of business as including "take away food shops and mobile food stands" and "public houses and bars". There is no mention in this listing of restaurants - leading me to be concerned that the business model proposed in this current application is a venue where people will move to at the end of an evening for a late-night drink.

I object to a venue of this nature being permitted so close to residential properties. There is a high risk of public nuisance due to late night noise and disturbances. There is a likelihood that this will lead to an increase of crime in the area. Children living within in our residential building will potentially be harmed, not just by the disruption that noise causes to sleep, but also by the sort of brawls and drunken behaviour that may become visible from their bedroom windows. There are families with young children living on the [REDACTED] floor.

If the decision is to grant this application then I would ask that the following conditions are included -

1. The hours of opening should match the planning permission agreed after negotiation between the landlords (Arch Co) and the Environmental Protection Team in 2023, i.e. 8.00 to 23.00 every day of the week.
2. There should be no service of drink orders without food orders. Reason - to prevent drinkers moving here for a last drink after eating elsewhere. This must be a restaurant - not a bar.
3. Not more than 3 people to be allowed to leave the building to smoke outside at any time after 10 pm.
4. No taxi or pick-ups allowed to idle outside building. Encourage pick up/drop off on Southwark St or Southwark Bridge Road, away from residential buildings.
5. Direct phone number for residents to call in the event of noise/nuisance.
6. There must be signs reminding people to leave quietly as this is a residential area.

7. No music at audible levels outside of the building at any time, including when opening/closing the door.

8. The applicant must agree they will make no future "off licence" application.

9. There seems to be no outside dining/drinking requested at present. The applicant should agree as a condition of granting the licence that if the Government changes licensing rules to make it easier to add outside dining/drinking to licences there will still be no outside dining after 10 pm and absolutely no drinking in the street without the customers being seated at tables and dining.

10. There are existing conditions in the planning permission re deliveries times etc. and the applicant should confirm that they have read that permission and agree to abide by the conditions there.

Yours,

Subject: Objection to Licence Application - 887519

Dear Sir/Madam,

I am writing to formally register my strong objection to the application for Licence Number: 887519.

I have resided at [REDACTED] since [REDACTED] and in an apartment on the [REDACTED] floor. I object to this application on the grounds of **Prevention of Public Nuisance** and **Prevention of Crime and Disorder**.

The area is already heavily saturated with noise pollution, specifically from patrons exiting Brix bar and intoxicated groups (often LSE Students) returning from the 'Ministry of Sound' nightclub. These individuals frequently loiter outside our building to smoke and wait for taxis, causing significant sleep disruption. In fact, one of my neighbours shared a video of a large brawl that occurred outside our building last week from people who had been at Brix bar (a video I am happy to share, if required).

Adding a venue licensed to serve alcohol until 01:00 will inevitably increase the severity and magnitude of these disturbances. Given the immediate proximity to residential units, a late-night license is entirely inappropriate for this location.

Furthermore, the application contains a material error: it states the area is not residential. This is blatantly false. Our building, containing 20+ flats, is directly adjacent to the site. This mis-representation alone should be grounds to scrutinise the applicant's credibility.

I also note that a virtually identical application was withdrawn earlier this year following numerous objections. The circumstances have not changed; therefore, the outcome should remain the same. This proposal threatens to increase crime, public nuisance, and negatively impact the value and liveability of our homes.

I urge the committee to reject this application immediately.

Yours sincerely,

Dear Licensing Team,

I write on behalf of America Street Ltd (Applicant) in relation to the premises licence application detailed below:

- **Licence number:** 887519
- **Trading name:** Flavr Street Food and Bar
- **Address:** Arch 37, America Street, London SE1 0NJ
- **Ward:** Borough and Bankside

Further to engagement with Responsible Authorities, ward councillors and local residents, the applicant has agreed a comprehensive set of operating restrictions and licence conditions. Local residents have indicated that, once this list is formally circulated by the Council, they would be minded to withdraw their representations. For clarity and transparency, the agreed commitments and conditions are set out below. We would be grateful if the Licensing Authority could circulate this schedule to all objectors and invite confirmation as to whether they wish to withdraw their representations.

Key Resident-Facing Commitments (Summary)

1. Hours aligned with planning controls
The premises will operate in accordance with the planning restriction on hours, being 08:00 to 23:00 daily (including Bank Holidays).
2. Seated consumption of alcohol
All customers consuming alcohol must be seated. There will be no dedicated vertical drinking area.
3. Smoking area management
A maximum of 3 people may use the designated smoking area after 22:00.
4. Taxi management
Customers will be encouraged to use Southwark Street for taxi pick-up and drop-off, away from residential frontages.
5. Direct resident contact
A direct telephone number will be provided for residents to contact the operator in the event of noise or nuisance.
6. Quiet departure signage
Clear signage will be displayed reminding customers to leave quietly and respect the residential area.
7. Music and noise control
 - There shall be no audible music outside the building after 20:00, including when doors are opened or closed.
8. No off-licence use
The applicant confirms there will be no future off-licence application.
9. External customer areas (if introduced)
If any external customer areas are added, alcohol consumption will be seated only.
10. Planning compliance
The premises will operate in full compliance with all conditions attached to planning permission 23/AP/0561 (08 November 2023), including restrictions relating to hours, servicing/deliveries, noise, refuse and cycle storage, and any approved extraction arrangements.

Full List of Agreed Licence Conditions (Responsible Authorities)

Age Verification

- Condition 4AA – Operation of a Challenge 25 age-verification policy.
- Condition 4AB – Staff training in Challenge 25, with training records maintained and available for inspection.
- Condition 4AC – Display of Challenge 25 signage at the entrance, points of sale and alcohol display areas.
- Condition 4AI – Maintenance of a refusals register available for inspection.

CCTV

- A digital CCTV system installed, maintained and recording whenever the premises is in use, capable of capturing clear facial images in all lighting conditions, time and date stamped, covering all internal and external areas including the frontage; footage retained for 31 days and made immediately available to Police or Council officers.
- At least one trained member of staff on duty or contactable at all times when open, able to view and download CCTV images to a removable device on request.
- Clear and legible CCTV signage prominently displayed.

Incident Log

- An incident log maintained recording anti-social behaviour, police or emergency calls, complaints, ejections, authority visits, CCTV malfunctions, crimes reported or observed, and any other relevant incidents.
- Logs to be completed contemporaneously and made available on request.
- Staff training in use of the incident log, with records retained.

Welfare & Vulnerability

- Support for “Ask for Angela” (or similar), with signage displayed including in toilets.
- Staff training with records maintained.
- A written Welfare and Vulnerability Policy, including drink-spiking prevention and care/reporting procedures, with induction and annual refresher training.

Alcohol & Dispersal

- Sale of alcohol to cease at least 30 minutes before closing time each day.
- A comprehensive Dispersal Policy covering quiet departure, transport and taxi management, winding-down procedures, security and stewarding, waste clearance, handling of ejections and incidents.
- Staff training in the dispersal policy with records maintained.

SIA & Security

- Daily written risk assessment by the Premises Licence Holder or DPS for the requirement of SIA door supervisors, made available on request.
- SIA door supervisors required only:
 1. Following a daily written risk assessment;
 2. On Friday or Saturday nights if deemed necessary;
 3. At pre-planned ticketed or large pre-booked events.
- When employed, a full SIA register to be maintained.

Other Controls

- No dedicated dance floor.
- Maximum capacity of 100 persons.

Request to Circulate & Suggested Response Date

To assist the Licensing Authority in determining whether a hearing is required, we respectfully ask that objectors review the agreed measures above and, if satisfied, confirm withdrawal of their representations by 23:59 on 24 December 2025.

We would be grateful if you could confirm once this information has been circulated and advise whether any representations remain outstanding.

Kind Regards
